DMS CELEBRATES TEACHERS' DAY ON SEPT. 5TH

***“Better Than A Thousand Days Of Diligent Study
is
One Day With A Great Teacher...”***

ON OCT. 10TH, DMS ORGANIZES CAMP FOR SENIOR CITIZENS

Doctors Arun & Geetha Badrinath checking

was switched on. Again it failed. The team led by Kumar began to get woked up as time was running out.

The report about the trial run was to be given to the GM of NTPC. He blew his top. It was already 1 am on 15th August and there were barely four hours left for the inauguration to take place.

Kumar was an ardent devotee of Guruji and had faith in Guruji. Desperate, he called up Guruji at that late hour and lamented saying his position would become very shaky if the inauguration failed.

Guruji was at that time sleeping in his room at Kazipet. He woke up on hearing the phone ring and took the call.

“Please give me a minute. I will pray and tell you. Call me back”. Guruji told Kumar.

Guruji prayed. After exactly a minute as the phone rang a second time, Guruji picked up. Kumar was waiting with his heart in his mouth. “There is a fault in Post number 401”. Guruji’s voice sounded clear and unambiguous. “A wrong connection has been given there. If you rectify that the test run will be successful. Do not worry. You will do fine”. Kumar knew the problem was already solved with this.

The mistake in Post number 401 was rectified and the trial run was successful. The inauguration, scheduled at 5 am went as planned without a hitch.

Later the GM of NTPC learnt about this miraculous intervention of Guruji from Kumar. He was very impressed and at the same time became curious to meet Guruji. At a later stage, he himself became a very ardent devotee of Guruji. There is one instance of his devotion that we know of, which is indeed very moving.

There are probably hundreds of instances where Guruji has been able to ‘view’ the state of affairs of devotees at other locations and guide the devotees. The more important of these which are known to us are being narrated in Satsanga. We have seen other instances too in the activity called ‘Sound therapy’ where prayer meetings were organised to heal patients through mantras such as Rudram. (These were done once a month). After visiting the hospital/house, Guruji would ask the patient/parents what happened. Then He would close His eyes and ‘see’ the problem with His spiritual powers. He would then give the ‘real’ diagnosis which could substantially vary from what the parents said.

The response to our appeal for donations has been very satisfactory. Thank you to all of you who have donated. And to others-please donate. Support our activities of Manava Seva Madhava Seva and donate at least Rs. 10,000/- and also pass on this request to your children who are well settled.

The donors are listed below alphabetically:

Donors who responded so far:

Senior Citizens' Camp

It is a shame that senior citizens are not cared for and even neglected. *DMS* would like to give this group, attention and love. From last year we have been doing camps and wish to have at least one camp a year.

The camp was organised on 10th Oct. 2015. Eighteen male members and twenty nine ladies totalling to forty seven, participated. *DMS* was happy to have the services of Dr. G. Arun (MBBS) to assist **Dr. Geetha Badrinath** in screening the patients. **Dr. Arun** is pursuing PG Diploma in Diabetology with the MMC which is attached to General Hospital. Both of them checked the senior citizens on their sugar levels, BP, Urine, and counselled them where necessary. Our hearty thanks to Dr.Arun for the support he gave! Free medicines were given depending on the problem. Annadhaanam was served to all.
